

Dräger safety

Dräger Parat C

What is a Fire/Smoke Escape Hood?

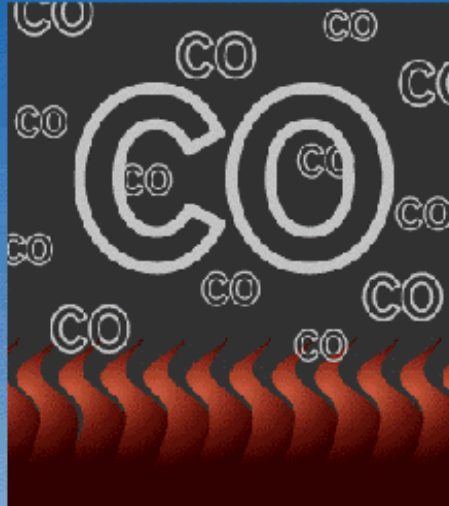

- Protective head coverings that prevent wearers from breathing smoke, particulate and toxic gases generated in a fire.
- Filter contaminated air and provide the wearer with a clear field of vision and precious time required to perform a successful emergency evacuation.

Dräger Parat C

- no color
- no taste
- no smell

CO is produced by all kinds of fires

85% of all victims of fire accidents die of smoke inhalation

Carbon monoxide is the cause of smoke inhalation injuries/deaths
