

Dräger Parat® C

In today's environment, the PARAT C can be donned in seconds . . . when seconds count.

ST-1687-2003

The PARAT C is a lightweight, portable easy to don smoke escape hood designed for self-rescue in the event of a fire. The PARAT C protects the wearer for a minimum of 15 minutes from smoke, carbon monoxide and toxic gases normally present during a fire. It is ideal as a personal escape device which can be used in emergency situations occurring in homes, office or apartment buildings, schools, hospitals, plant facilities and hotels.

BENEFITS

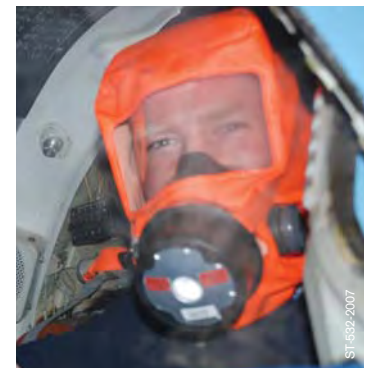

- EN403 approved - 3rd party testing and approval means you can put your trust in this product.
- Dräger has over 25 years experience of manufacturing and producing fire/smoke escape hood.
- Current customer markets include local municipalities, aviation/aircraft, offshore drilling operations, fire service, utilities, medical facilities, etc.

FEATURES

- Hood made from flame-retardant, self-extinguishing PVC material, flash tested at 1,200° F.
- Bright orange hood with high visibility and excellent reflective properties
- One universal size.
- Can be worn with glasses and long hair.
- Large visor treated with anti-misting agent provides wide range of vision for quick escape.
- Elastic collar makes hood easy to don and adjust.
- Comfortable, soft, inner mask allows wearer to breath normally through nose or mouth and reduces CO₂ build-up.
- Perfect for frequent travelers.
- Official test documentation from an independent laboratory for protection from H₂S.
